

– Discover Bangalore’s Most Exclusive Salons

The AI-Powered Luxury Salon Marketplace for Bangalore

“Finding the perfect luxury salon should be effortless.”

The Problem

Bangalore's luxury salon discovery is broken

Fake Reviews

Paid or incentivized ratings erode trust

Hidden Pricing

Real cost only known after a call or visit

No Personalization

Generic listings ignore hair & skin needs

Stylist Discovery

No way to verify a specific stylist's skill

Inconsistent Quality

First-time visits are a gamble

Fragmented Booking

Still phone calls & unanswered DMs

TOP PAIN POINT

Fake Reviews

5/5

Severity

5/5

Frequency

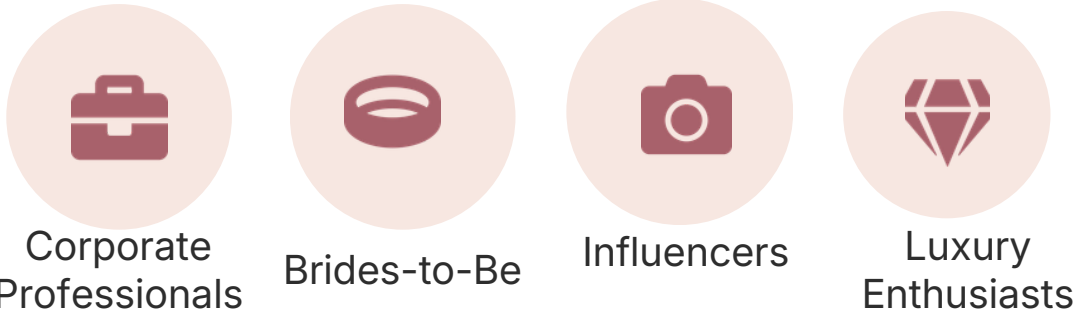

Ranked #1 of 20 pain points identified in our user research

Market Opportunity

A large, fast-growing premium beauty market remains underserved

Bangalore Luxury Salon Hubs (Phase 1 Launch)
Indiranagar: *Young professionals, trendy studios, high app adoption*
Koramangala: *Startup founders, tech employees, convenience-driven*
HSR Layout: *Tech professionals, value-conscious luxury*
Whitefield: *IT-park employees, spa-wellness integration*
Jayanagar, JP Nagar, MG Road, Richmond Town, Sadashivanagar:
Multi-tier expansion targets

TARGET SEGMENTS

BUSINESS MODEL STREAMS

Revenue Stream	Model	Year 1 Target
Commission on Bookings	15–20% per transaction	₹1.2–1.8 Cr
Premium Salon Listings	₹2,000–10,000/month	₹0.3–0.5 Cr
Premium Customer	₹500–1,500/month	₹0.1–0.2 Cr
AI Beauty Assistant	₹99–299/month (advanced)	₹0.05–0.1 Cr

UNIT ECONOMICS (YEAR 1)

KPI	Value	Logic
Avg Booking Value	₹4,000–6,000	Mix: haircut (₹800–1,500), color (₹3K–6K), bridal (₹20K–1L)
Commission/Booking	₹600–1,000	15% take-rate
CAC (Customer)	₹120–180	Content + referral-led, lower than paid-ads-heavy categories
CLV (12-month, ~6 bookings/year)	₹4,000–6,000	Conservative repeat rate
LTV:CAC Ratio	6–10x	Acceptable for beauty marketplace (target: 6x+)
CAC Payback Period	4–5 months	Time to recover customer acquisition cost

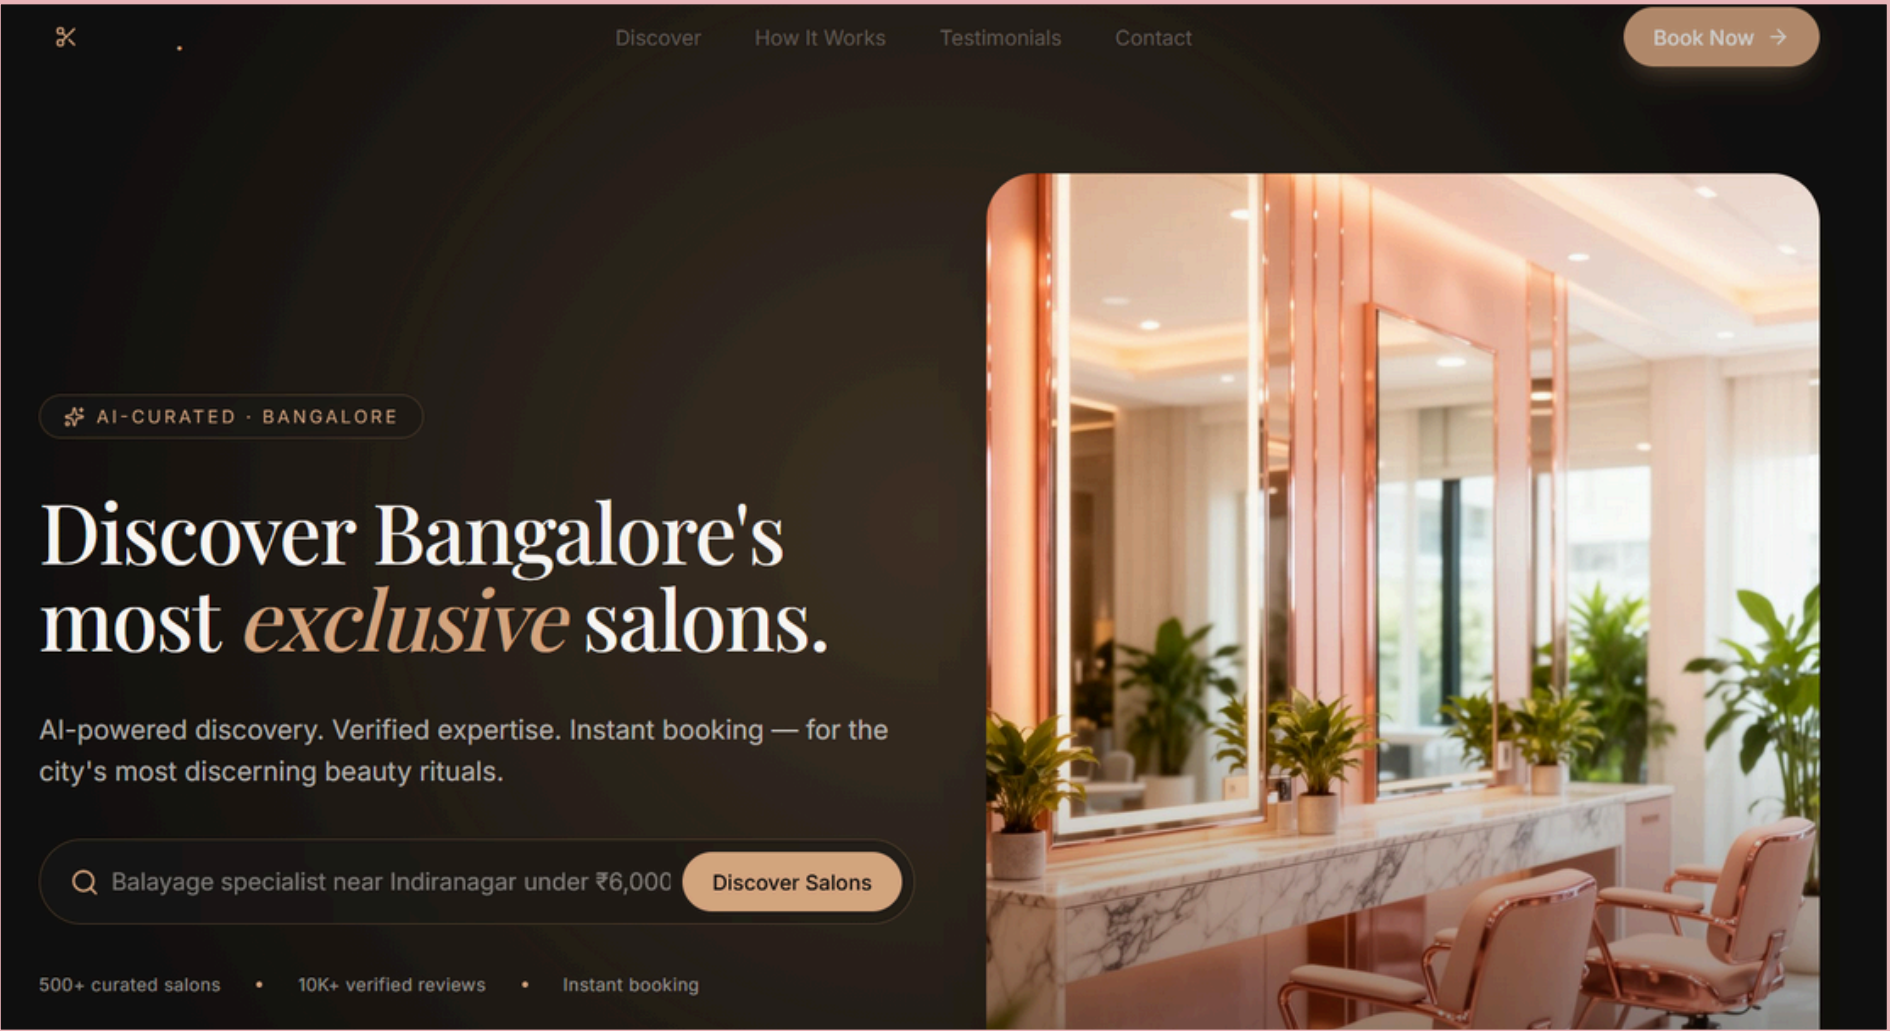

PATH TO PROFITABILITY

Year	GMV (₹ Cr)	Revenue (₹ Cr)	Op Costs (₹ Cr)	EBITDA %	Status
Year 1	8–12	1.2–1.8	3.5–4.5	-65%	Growth/Investment Phase
Year 2	40–60	6–9	8–10	-15%	Scaling Phase
Year 3	120–180	18–27	15–18	+8–15%	Unit Economics Positive
Year 5	400–600	60–90	45–60	+25–30%	Profitability & Scale
